

ETON TOWN COUNCIL

Planning Committee

The intention is that the Planning Committee will be active in its role of dealing with the development control functions of the Council and helping to focus discussions on these issues at meetings of full Council and recommending appropriate responses where necessary.

All planning applications received are carefully considered at full Council meetings and, where appropriate, representations are made to RBWM. The Committee also deals with the monitoring of planning enforcement issues, parish/town council planning policy recommendations and other development control issues.
